ATLANTIC HEALTH HOSPITALS' VISITOR POLICIES CHANGE

MORRISTOWN, NJ NOVEMBER 18, 2009 - In response to increased pandemic 2009 H1N1 flu (swine flu) activity at our hospitals and throughout the state, we have temporarily changed our visitor policies at Morristown Memorial and Overlook hospitals. These restrictions are necessary to decrease the risk of exposing patients, visitors and staff to the H1N1 virus. The New Jersey Hospital Association has strongly recommended adopting these guidelines and health care facilities across the state are establishing similar policies.

Our hospitals' revised visitor policies state:

- No visitors under age 18
- Limit two visitors per patient
- Do not visit if you or a member of your household are sick
