

THE HEART OF THE MATTER

About 250,000 people die each year from sudden cardiac arrest. That's about 700 a day – about the equivalent of three 747s crashing each day!

90% of those in cardiac arrest will die before receiving emergency care.

AED PROGRAM

Our organization/company would like to partner with the Newton Medical Center Foundation to obtain a portable Automated External Defibrillator. It is understood that training and AED Certification is required before the AED can be used (*contact NMC Foundation at 973-579-8309 for details*).

Name of Organization/Company _____

Contact Person _____ Title _____

Address _____

City _____ State _____ Zip _____

Phone _____ Fax _____ Email _____

Estimated People Contact per Year _____ Number of Units Desired _____

Organization Status: Profit _____ Non Profit _____ Tax ID # _____

- ***Not-for-profit organizations are requested to provide a copy of the IRS Determination Letter with this application***

Signature of Authorized Contact _____ Date _____

To be eligible for the **not-for-profit subsidy, a municipality, town, school or other health and safety not-for-profit organization must demonstrate to NMC Foundation that it normally has contact with a sufficient number of people so as to justify the need for a heart defibrillator; that it has a location and attending personnel that would allow for the defibrillator's immediate use; and that I would contribute **\$830.00** towards the purchase of the defibrillator and can arrange training with the NMC Community Education Program.*

*****For-Profit organizations and companies are required to contribute \$1,660.00 towards the purchase of the defibrillator; training for six people included in cost.***
