Warm Up With Healthy Winter Soups
ER Robot Saves Local Stroke Patient

Welcome To Our Winter
New Vitality
Community Classes And Calendar
DEAR FRIENDS,

Time to leave pumpkin carving and haunted houses behind: Jack Frost is here. These are the months we share new memories with friends and family as we come together to celebrate the season.

To keep you healthy in the new year, we’ve put together a comprehensive array of New Vitality listings bringing you the best in local wellness events. We’re also running a feature article on “teleneurology,” to demonstrate how physicians use the latest remote control technology to help stroke patients.

And because the colder weather always puts a brisk chill in the air, we’ve included ideas for healthy soups that you can easily prepare for your family all winter long. Warm up together.

Deborah K. Zastocki, DNP, RN
President, Chilton Medical Center

Atlantic Health System is one of the largest nonprofit health care systems in New Jersey, comprised of Morristown Medical Center, Overlook Medical Center, Newton Medical Center, Chilton Medical Center and Goryeb Children’s Hospital. The five medical facilities have a combined total of 1,599 licensed beds and more than 3,700 affiliated physicians providing a wide array of health care services to the residents of northern and central New Jersey. The medical centers, and Goryeb Children’s Hospital as part of Morristown Medical Center, are accredited by The Joint Commission. Specialty service areas include advanced cardiovascular care, pediatric medical and surgical specialties, neurology, orthopedics and sports medicine. Each of these programs has earned top ratings and recognitions in its respective field.

COLD VERSUS FLU

The common cold and seasonal influenza are often mistaken for one another because early symptoms of both illnesses can be similar. Both are respiratory illnesses caused by different viruses that are spread from person to person. Severity of symptoms can vary from one individual to another, but in most cases, the flu is much more serious than the common cold. Here is a list that can help you tell them apart.

COMMON COLD

• **Common Symptoms:** Sneezing, stuffy nose, sore throat, watery eyes
• **Uncommon Symptoms:** Chills, fever
• **Mild Symptoms:** Exhaustion, body aches, headache
• **Mild-to-Moderate Symptoms:** Chest discomfort
• **Coughing Type:** Hacking

INFLUENZA

• **Common Symptoms:** Fever, sneezing, stuffy nose, sore throat, chills, headache, vomiting (common in children more often than adults) and diarrhea
• **Moderate-to-Severe Symptoms:** Exhaustion
• **Severe Symptoms:** Body aches, chest discomfort
• **Coughing Type:** Dry

The best way to prevent the flu is by receiving your seasonal flu vaccine each year. Washing your hands frequently with soap and water or using a hand sanitizer are helpful measures, along with avoiding touching your eyes, nose and mouth.

Winter Exercise Facts

Sure, winter is the season when snow blankets the ground, and you feel like all you want to do is stay indoors with a warm cup of cocoa. But it’s actually the perfect time to get out there and burn some calories.

Here are some simple “wintercises” and the calories they burn.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Calories Burned per Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ice-skating</td>
<td>425</td>
</tr>
<tr>
<td>Downhill skiing</td>
<td>374</td>
</tr>
<tr>
<td>Cross-country skiing</td>
<td>510</td>
</tr>
<tr>
<td>Sledding</td>
<td>407</td>
</tr>
<tr>
<td>Building a snowman</td>
<td>349</td>
</tr>
</tbody>
</table>

Even shoveling snow burns 523 calories an hour — surprise a neighbor or friend by clearing up his or her driveway and sidewalk while keeping healthy on a chilly winter afternoon. You’ll enjoy it more than you think.

ACCESS YOUR PATIENT PORTAL

Managing your health care just got a little easier. You do not have to call your primary care physician (PCP) to ask basic questions about your medical history: You can get all the help you need from the comfort of your home.

The MyChilton Patient Portal is the streamlined, free way to connect to vital personal health information from your laptop, tablet or smartphone — anywhere you have a Wi-Fi connection. We call it a portal because it’s an electronic doorway giving you immediate access to important facts, like your:

- lab and imaging results
- allergies and conditions
- immunization history
- medications and dosages
- recent physician visits
- post-visit discharge instructions

To activate your portal, simply go to our website, chiltonhealth.org. Click on “MyChilton Patient Portal” and follow the standard enrollment steps. You’ll have to create a unique username and password and answer a few short questions to create your profile. This will allow you to view your vital records privately, conveniently and securely, so you can manage your health at all times, wherever you are, whenever you want.
Swift action and advanced technology save stroke victim

JUST AN ORDINARY DAY
At about 9:00am, West Milford resident Sally Roche was sautéing vegetables from the garden when her spouse, David, indicated he was not feeling “right.” “I thought I slept funny,” he explains. The couple was initially unconcerned, but Sally soon noticed her husband stumbling and saw that he was having difficulty sitting and dressing. She called 911.

Minutes later, David was in an ambulance headed for Chilton Medical Center. By the time he reached the hospital, he could not move his right arm or speak — and was clearly exhibiting signs of a stroke.

ROBOT TO THE RESCUE
Fortunately, Chilton Medical Center recently added a new member to its emergency stroke team: a telemedicine robot. It allows a neurologist who specializes in “teleneurology,” or the science of remote stroke treatment, to evaluate and communicate with patients through a secure, two-way digital video camera.

“A DRAMATIC SAVE
“David would have been permanently paralyzed on his right side if he had not received the tPA in time,” adds Chilton Medical Center physician Ami R. Patel, DO. “Time lost is brain lost, so every passing minute is critical when it comes to diagnosing stroke and administering treatment that can reverse its disabling, potentially fatal effects.”

Seven weeks after his stroke, the 75-year-old longshoreman returned to his job on the docks of Newark’s seaport and is once again cruising around town in his prized Model T pickup truck — and his motorcycle.

“My father was just two weeks shy of his 60th birthday when he died from a stroke ... because he went back to bed instead of getting help,” adds David. “Even if you’re not sure, make the call. It could save someone’s life.”

For more information on stroke, visit atlantichealth.org/chilton.

Know the Signs of Stroke

The American Stroke Association offers an easy way to identify the sudden signs and symptoms of stroke. Just remember the acronym FAST*:

**Face Drooping** Ask the person to smile. Is the smile uneven?

**Arm Weakness** Ask the person to raise both arms. Does one arm drift downward?

**Speech Difficulty** Ask the person to repeat a simple sentence. Is his or her speech slurred or difficult to understand?

**Time to Call 911** If you notice ANY of these symptoms, dial 911 and get the person to the nearest hospital.

INTEGRATED WELLNESS

ARTHritis Foundation Aquatics Program (Joint-Friendly)
Exercise without excess strain on your joints. Bring a lock, towel and swim cap to the class.
**TIME:** Noon to 12:45pm  
**DATE:** Thursdays, February 5 to March 26  
**PLACE:** New York Sports Club, 1481 Route 23 South, Butler  
**FEE:** $40 for all eight weeks

ARTHritis Foundation Exercise Program (Joint-Friendly)
Gentle activities help increase joint flexibility and maintain range of motion.
**TIME:** 1:30 to 2:30pm  
**DATE:** Mondays, February 2 to March 23  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $40 for all eight weeks

Hatha Yoga
Integration of body, mind and breath. Bring a yoga mat.
**TIME:** 6:30 to 7:30pm  
**DATE:** Tuesdays, January 27 to March 31  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $80 for all 10 weeks

Tai Chi Chih® Joy Thru Movement—Beginner (Joint-Friendly)
A series of simple, non-martial movements that anyone can do.
**TIME:** 9:45 to 10:30am  
**DATE:** Thursdays, January 22 to April 9  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $60 for all 12 weeks

Tai Chi Chih — Intermediate (Joint-Friendly)
This class will introduce Seijaku (advanced T’ai Chi Chih). Participants must complete at least two beginner sessions prior to taking this intermediate class.
**TIME:** 10:45 to 11:30am OR 11:45am to 12:30pm  
**DATE:** Thursdays, January 22 to April 9  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $60 for all 12 weeks

Yoga — Beginner
Bring a small blanket and a mat for the floor.
**TIME:** 11:30am to 12:30pm  
**DATE:** Tuesdays, January 20 to April 7  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $60 for all 12 weeks

Yoga — Intermediate
Bring three yoga blankets and a mat. Participants must complete at least two beginner sessions prior to taking this intermediate class.
**TIME:** 10:00 to 11:00am  
**DATE:** Tuesdays, January 20 to April 7  
**PLACE:** Chilton Medical Center, Collins Pavilion  
**FEE:** $60 for all 12 weeks

Preregistration required for all programs
NEW VITALITY WINTER 2015

Learning @ Your Leisure
Learning @ Your Leisure will allow you to view recorded webinars from the comfort of your home. For information or to view the webinars, visit our website at chiltonneighbors.org.

Free Sleep Health Screenings
Visit chiltonhealth.org.

Pulmonary Rehabilitation Program
This nine-week program is for people with various lung conditions. For information, call 973-831-5000, ext. 5685.

Diabetes Self-Management Education Program
For information or to schedule an appointment, call 973-831-5216.
AQUACISE, LEVEL 1 (Joint-Friendly)
Cardiovascular fitness, endurance and flexibility in chest-deep water.
Bring a lock, towel and swim cap.
**Time:** Noon to 12:45pm
**Date:** Mondays, January 19 to April 6
**Place:** New York Sports Club, 1481 Route 23 South, Butler
**Fee:** $60 for each 12-week session

AQUACISE, LEVEL 2 (Joint-Friendly)
Stretching and cardiovascular conditioning. Bring a lock, towel and swim cap.
**Time:** 1:00 to 1:45pm
**Date:** Wednesdays, January 21 to April 8
**Place:** New York Sports Club, 1481 Route 23 South, Butler
**Fee:** $60 for all 12 weeks

BETTER BONES — Intermediate
For individuals who have already completed at least two sessions of Muscles in Motion. Bring 1-, 2- or 3-pound handheld weights.
**Time:** 10:15 to 11:15am
**Date:** Tuesdays, January 20 to March 31 (no class February 24)
**Place:** Wayne Presbyterian Church, 1200 Alps Road, Wayne
**Fee:** $60 for each 10-week session

CORE DYNAMIX
Cardio, balance, standing (barre) work and mat floor exercises. Bring one pair of light weights (2 to 3 pounds) and a mat.
**Time:** 5:30 to 6:15pm

SENIOR POLICE ACADEMY

The Passaic County Sheriff’s Office will host this award-winning, four-week course to enlighten our senior community and improve their quality of life. Some of the topics that may be covered include: how to be a neighborhood watch dog; traffic and pedestrian safety/defensive driving; fire safety; crime prevention; senior fraud; alcoholism and gambling, and self-defense for seniors.

Bagels and coffee will be provided, and there will be a graduation ceremony and luncheon at the completion of the course. This important community service is presented in partnership with the Passaic County Sheriff’s Office and the Wayne Alliance for the Prevention of Substance Abuse.

TIME: 9:30am to Noon
DATE: Tuesdays, April 7 to 28
PLACE: Passaic County Police Academy, 214 Oldham Road, Wayne
FREE

THE PALISADES

A colorful, historical tour of one of New Jersey’s most impressive landmarks, including Fort Lee and Palisades Amusement Park.

PRESENTER: Kevin Woyce
TIME: 10:00am
DATE: Friday, April 10
PLACE: Chilton Medical Center, Collins Pavilion
FEE: $5

CALLING ALL NEW GRANDPARENTS

This class will inform new and “about-to-become” grandparents about current ideas in child care.

PRESENTER: Karin Beach, RN, BSN, ICCE, ICD
TIME: 6:30 to 8:30pm
DATE: Thursday, April 23
PLACE: Chilton Medical Center, Board Room
FREE

ROSIE THE RIVETER: WE CAN DO IT!

A cultural icon representing American women who worked in factories during World War II, Rosie learned to rise to the challenge and adjust to returning to traditional roles once men returned home from the war. This program is funded by the Horizon Speakers Bureau of the New Jersey Council for the Humanities, a state partner of the National Endowment for the Humanities.

PRESENTER: Elizabeth Michaels
TIME: 11:00am
DATE: Friday, March 27
PLACE: Chilton Medical Center, Collins Pavilion
FREE

AUXILIARY EVENTS

A NIGHT AT THE THEATRE

The Chilton Auxiliary is hosting a benefit performance of The Spitfire Grill: A Musical. This event is being sponsored by Boiling Springs Savings Bank, and proceeds will benefit Chilton Medical Center Cancer Center.

DATE: Thursday, May 28
PLACE: The Barn Theatre, 32 Skyline Drive, Montville
TICKET PRICE: $35

For ticketing information, contact the Auxiliary office at 973-831-5345.

Elizabeth Michaels
Accountable Care in New Jersey

ACO — Accountable Care Organization. You might have seen this relatively new health care acronym cropping up in the news lately. But for Medicare patients and others on certain commercial insurance plans in northern New Jersey, what it means is access to an exceptionally broad range of health care providers working together to ensure they get the right care at the right time — and at the right cost.

There are about 625 ACOs across the country to date. The Atlantic ACO is a group of doctors, hospitals and other health care providers who have come together voluntarily to coordinate high-quality care for the community.

“Atlantic Health System joined with Valley Health System and its hundreds of providers to create this seamless system of care, which is there for you whether you need treatment at your primary care provider’s office, in the emergency room, during a hospital stay or even at home,” says David Shulkin, MD, president of Atlantic Accountable Care Organization, and president of Morristown Medical Center.

PRACTICING PREVENTIVE CARE
“The Atlantic ACO is designed to help members become healthier, and to help those with chronic illnesses like heart disease or diabetes, for example, keep their condition under control,” according to Dr. Shulkin. “That’s one of the most robust benefits that our ACO can offer, and one of the ways we can help improve the health of the overall population we serve.”

If your insurance plan is part of Atlantic ACO, your primary care physician (PCP) has probably already reached out to you regarding tests, screenings, wellness visits and other services. This is a more proactive way of providing care than in the past, when you had to be the one contacting your physician.

“The linchpin of this highly coordinated level of care is the ACO’s robust PCP network,” says David R. Gross, executive director of Atlantic ACO. “All other providers, from specialists to hospitals, work in harmony with them.”

ADDED PATIENT BENEFITS
The ACO has also put systems in place to ensure that all care providers share health records and test results, so they have all the necessary information at their disposal to make informed decisions. This pooling of information allows patients to avoid redundancies, like having duplicate tests or procedures. Of course this streamlining also saves health care dollars, which can be distributed to other services. In addition, federal guidelines allow the ACO to share in the savings it achieves for the Medicare program, benefitting the network as a whole.

“The ACO is an ideal platform to coordinate all providers,” observes James Barr, MD, medical director of Atlantic ACO. “By working in unison, we’re able to improve patients’ quality of care, to enhance their overall health care experience and, most importantly, to make care more affordable for everyone.”

For more information about Atlantic ACO, call 973-971-7499 or visit atlanticaco.org.
PREREGISTRATION IS REQUIRED FOR ALL PROGRAMS.
Please return entire page.

TO REGISTER FOR ALL CLASSES:
1. Tear out and complete this registration form. Check box for class(es) desired.
2. Make your check payable to Atlantic Health System.
   Mail the completed form along with your check to: NEW VITALITY
   Chilton Medical Center
   97 West Parkway
   Pompton Plains, NJ 07444
   (You will not receive a confirmation notice — be sure to mark your calendar accordingly.)
3. If you are registering for other people, please list their addresses and telephone numbers as well. If you are only registering for FREE classes, please call Chilton Medical Center at 973-831-5367. You may also register online at chiltonhealth.org/calendar.
4. If a class is full when we receive your check, you will be issued a refund, placed on a waiting list and notified if an opening occurs. Refunds cannot be made once a class has begun.
5. Program fees for $5 classes are non-refundable. If you are unable to attend any of our $5 classes, please be sure to call us prior to the date of the program and we will issue you a voucher to be used toward any future $5 class during the current year.

RELEASE OF RESPONSIBILITY FOR PARTICIPATION IN CHILTON MEDICAL CENTER’S EXERCISE PROGRAMS

I, ________________________________, hereby consent to become a participant in the New Vitality classes offered by Chilton Medical Center. I understand that this program is centered on exercise and health.

As with any exercise, there is a slight possibility of injury and I understand that if I am concerned about the appropriateness of these exercises I will inform the instructor, consult my physician and follow his/her instructions.

I recognize that there is a possibility that I may incur some injury or develop or aggravate some medical problem as a result of my participation in the session(s) and I wish to assume the risk. Accordingly, I agree that I will not hold New Vitality, Chilton Medical Center, Atlantic Health System or the instructor liable or seek any legal recourse of any kind for any injury or aggravation of a pre-existing condition resulting from my participation in this program.

I have read this Consent and Waiver carefully, I understand it, and I have signed it with the understanding that it is legally binding upon me.

Classes are held in various locations. For directions or information about any of these classes, call 973-831-5367.

In case of severe inclement weather, it is the responsibility of the registrant to call 973-831-5367 for a recorded message indicating cancellation of class/program.
Delicious and nutritious, there’s nothing better than a bowl of hot soup on a cold winter’s day. Soups come in all shapes and consistencies, from clear soups, such as bouillon or consommé, to soups thickened with starch or cream, like purées and bisques.

“There’s a philosophy that there are cooling foods and warming foods and that people will naturally gravitate toward cooling foods in the summer and warming foods in the winter to balance out the effects of the weather,” says Mary Finckenor, registered dietitian for Morristown Medical Center. And now that the winter is here, soup is clearly the way to go.

**THE BENEFITS OF ADDING SOUP TO YOUR WINTER MENU** Soup is a filling, nutritious and easy way to keep warm and fuel up during the winter months. It not only makes for a substantial meal: It’s chock-full of nutrients and is simple to prepare.

**FILL UP FASTER** Soup can be a tasty way to satisfy your appetite and manage your weight. “If you start a meal with a soup, you will generally eat fewer calories at that meal because liquid foods like soup are very satisfying.”

**TAKE YOUR VITAMINS** “Nutrient-wise, soup can deliver a healthy mix of vegetables you might not normally eat,” says Finckenor. In some cases, the nutritional value of vegetables actually increases as they are heated. “For example, we’re able to absorb more lycopene from tomatoes and beta-carotene from carrots or butternut squash when they’re cooked,” Finckenor observes. Leafy greens like kale are filled with vitamin K and potassium and hold up well in soup.

**IT’S AS EASY AS 1-2-3** Preparing soup from scratch is relatively simple. Buying precut vegetables and using a slow cooker can help save time. Ready-made soups can be quick and easy, but be careful to avoid cream-based soups and watch salt content, Finckenor warns. “Canned soup is notoriously high in sodium, often having over 800 milligrams in one cup. Limit sodium to no more than 300 milligrams per cup. Watch out for claims: Soups labeled ‘reduced’ or ‘less’ sodium can still be quite high in sodium. Read nutritional labels carefully. Look for no-salt or unsalted options, instead, then then salt it yourself for taste.”

And remember, soup makes a meal. Frozen soup can even keep for up to three months — and since January is National Soup Month, you can celebrate with a wholesome meal from New Year’s well past groundhog Day. See Finckenor’s recipe for her Butternut Squash Soup With Apple Cider Cream: It’s a wintery favorite.

### Butternut Squash Soup With Apple Cider Cream

**Ingredients**
- 2 tablespoons canola or olive oil
- 2½ pounds chopped butternut squash
- 2 cups chopped white onion
- ½ cup chopped peeled carrot
- 1 Granny Smith apple, peeled, cored and chopped
- 1½ teaspoons dried thyme
- ½ teaspoon crumbled dried sage leaves
- 4-5 cups no-salt-added chicken or vegetable stock
- 2 cups apple cider, divided
- curry powder — optional
- cayenne pepper — optional
- ⅔ cup plain Greek yogurt or low-fat sour cream

Preheat oven to 375 F. Toss butternut squash with a little canola or olive oil and bake on a baking tray until tender — 30-45 minutes. When tender, remove from oven and set aside.

While squash is baking, heat oil in a large pot. Add onion and carrots; sauté until slightly softened, about 15 minutes. Mix in apples, thyme and sage. Add stock and 1 cup cider and bring to a boil. Reduce heat to medium-low. Cover and simmer until apples are tender, stirring occasionally, about 30 minutes. Add squash and cool slightly. Working in batches, purée soup in blender or use an immersion blender to purée inside the pot. Season with curry powder and cayenne pepper to taste (if desired).

Boil remaining cider in heavy small saucepan until reduced to ½ cup. Place yogurt or sour cream in small bowl. Whisk in reduced cider. [Soup and cider cream can be made one day ahead. Cover separately and refrigerate.] Bring soup to a simmer. Ladle into bowls. Drizzle with cider cream.

This soup freezes beautifully — top with freshly made cider cream and you’re good to go.

**Yield: Serves 8**
