MEDICARE AND ATLANTIC HOME CARE
Did you know that Medicare covers visiting nurses and rehabilitation therapists 100 percent to help you heal at home? Medicare will pay for short-term, intermittent skilled care from a Medicare-certified home care agency such as Atlantic Home Care and Hospice. Often, home care is ordered after a hospitalization or rehab stay, but your physician may see a need to order these services from his/her office to prevent hospitalization. The focus of care is to return you to independence through rehabilitation and education.

In order to qualify for home care services under Medicare, your physician must order home care, you must be homebound (leave your home infrequently with the assistance of another person usually for doctor’s appointments), and you must have a skilled need for a visiting nurse or rehabilitation therapist (physical, occupational or speech therapist). Hospice care is also covered 100 percent under Medicare if you have a life-limiting illness. Specially trained hospice physicians, nurses, social workers, volunteers, chaplains, and home health aides work as a team to provide comfort, dignity and support to you and your family.

Atlantic Home Care provides these services in Morris, Union, Somerset, Sussex, Warren and Essex counties. Atlantic Hospice covers Morris, Somerset, Union, Essex and parts of Passaic counties.

For more information, call Atlantic Home Care and Hospice at 973-379-8472.
