

Flu Vaccine Resource Guide, 2021-2022 Season

The Centers for Disease Control and Prevention (CDC) recommends a yearly flu vaccine as the first and most important step in protecting yourself and your family. Anyone can get the flu, even healthy people. There are many convenient ways to get a flu vaccine, including your primary health care provider, your employer, your local health department, or a retail pharmacy in your community. If you are enrolled with a home care agency, call to ask if they are providing flu vaccines to clients.

Atlantic Health System has compiled a list of locations in our region where individuals and families can get a flu vaccine. We have made every effort to ensure this list is updated and accurate, but we encourage you to contact a flu vaccine provider in advance to confirm the details below.

Click on the link for the county you wish to view to be taken directly to that list within this guide.
