

Morristown Medical Center Maternity Pre-Registration Packet

Atlantic
Health System

Morristown Medical Center

Dear Mom to be:

Thank you for choosing Morristown Medical Center to deliver your baby!

Our highly trained staff, along with your Obstetrician/Midwife and your pediatrician are here to make this a “special” delivery. There are several things you will need to do to help us get this journey on the road. First, we need to get you registered with the hospital. Below is a list of instructions to help you complete the attached file with all the forms. Once they are complete, you will need to return the file to us, either by US postal mail or email.

- Email address – maternity.registrationmmh@atlantichealth.org
- Postal address – Morristown Medical Center / 100 Madison Ave. / Morristown, NJ / 07960
Attention: Maternity Registration Interoffice Box 44

1. Complete the registration form and email it or mail it back

2. It is very important you send a copy of the front/back of the patient’s insurance cards and driver’s license/passport. Without it, we are unable to process your registration.

3. Read the informational form about *Supplemental Newborn Screening*, then sign and return the acknowledgment sheet.

The State of New Jersey mandates that every baby born in New Jersey be screened for multiple disorders that can cause serious health problems. **By signing this sheet, you are NOT giving permission for additional screening to be done but acknowledging we have given you the necessary information regarding necessary testing.** Should you choose to review the additional material on supplemental screening you can visit the websites provided on the notice.

4. **You will receive a second packet which includes the pediatrician form for you to fill out once we received the pre-registration paperwork.** Before you come to the hospital you MUST choose a pediatrician to care for your baby. We need to know who your pediatrician is upon your admission to assure your baby’s metabolic testing results are sent to the right physician, post-discharge. If your chosen pediatrician does not have privileges in the newborn nursery, you may use our board-certified pediatric hospitalist.

5. Please feel free to contact the Pre-Registration office should you have any questions or concerns regarding your registration at 973-971-5732 or maternity.registrationmmh@atlantichealth.org

Thank You
The Maternity Center Staff

Advance Directives provided upon request.

MATERNITY REGISTRATION INFORMATION

Please have Photo ID and Insurance cards available

Email Address: _____

Obstetrician's Name: _____

Due Date: _____

Primary Care Doctor: _____

Patient Information

Notification in Case of Emergency (A second person to contact if desired)

Please notify: (Name)			Relation to Patient:			
Address:			City, State, & Zip code:			
Home Phone #:			Work Phone #:			

Due to the multitude of variations with Insurance plans we cannot be responsible for knowing each individual patient's coverage plan. Therefore make sure that you familiarize yourself with your insurance plan, and keep us updated with any changes. If information is not received, incomplete, or inadequate we will have to register you as a "Self Pay Patient". This means you will be getting the bill from the hospital and will then have to submit the bill to your insurance company.

DT1200

State of New Jersey Department of Health NOTICE OF AVAILABILITY OF SUPPLEMENTAL NEWBORN SCREENING

New Jersey law mandates that every baby born in New Jersey be screened for 54 disorders that can cause serious health problems. These disorders may not be apparent at birth, but if left undetected and not treated early in life, can lead to problems that include mental retardation, disability, or even death.

The New Jersey Department of Health Newborn Screening Program performs screening tests for these 54 disorders on all newborns within 48 hours after birth. The State laboratory uses an advanced technology, called tandem mass spectrometry (MS/MS), to test for these disorders. This technology may detect the presence of additional disorders for which screening is not mandated. If the State laboratory detects the presence of any disorder, the State will notify your health care provider.

New Jersey law requires health care providers to provide this pamphlet to expectant parents and guardians to advise you of the following. Supplemental newborn screening is available for other disorders in addition to the 54 disorders for which State law mandates screening. The State does not perform supplemental newborn screening. Private laboratories provide supplemental newborn screening. Supplemental newborn screening is optional. Your health care provider may recommend that supplemental newborn screening be performed. The cost for supplemental newborn screening is an out-of-pocket expense. The screening tests that private laboratories perform may repeat the tests for some or all of the 54 disorders for which the State already conducts screening.

If you decide to have supplemental newborn screening performed:

- Preferably several months in advance of your delivery date, you will need to purchase a supplemental screening test kit from a laboratory authorized by the Centers for Medicare and Medicaid Services (CMS).
- You will have to read and follow the instructions provided with the test kit, and tell your health care provider that you want supplemental screening.
- Typically, your health care provider will have to sign an order for the test, and the private laboratory will send the results to your health care provider.
- The State Newborn Screening Program will not receive the supplemental screening test results.

Reference in this notice to any specific commercial service, company, or organization does not constitute an endorsement or recommendation by the New Jersey Department of Health. The Department is not responsible for the content of any web page for which a link is provided below. If you have any questions, please contact your health care provider. Staff of the Department's Newborn Screening Follow-up Program and the Newborn Screening Laboratory, for whom contact information is given below, can provide you with information but cannot give medical advice and cannot advise as to whether to have supplemental newborn screening performed. This information is subject to change.

**ACKNOWLEDGMENT OF RECEIPT
OF NOTICE OF AVAILABILITY OF
SUPPLEMENTAL NEWBORN
SCREENING**

PATIENT ID
HERE

By signing this form, I confirm that:

- My health care provider gave me the pamphlet titled “New Jersey Department of Health Notice of Availability of Supplemental Newborn Screening” and I kept a hard copy of the pamphlet;
- My health care provider gave me a reasonable opportunity to read the pamphlet;
- I understand that mandatory newborn screening that the State will perform will not detect all possible disorders in infants for which tests are available;
- I understand that I am personally responsible for the cost of supplemental newborn screening; and
- I understand that if I choose to have supplemental newborn screening performed, then, several months in advance of the expected delivery date, I need to order the necessary kit from a laboratory of my choice and inform my health care provider that I want supplemental newborn screening performed.

Signature: _____

Print name: _____

Date: _____

Relationship to newborn (*circle one*) Parent Guardian

Witness to signature: _____

Print name of witness: _____

The health care provider shall maintain the signed original of this acknowledgement. The health care provider shall give the signer the pamphlet titled “New Jersey Department of Health Notice of Availability of Supplemental Newborn Screening.”
