

TAKE CHARGE OF YOUR HEALTH

Early Detection Can Save Lives

The road to long-term health begins with your primary care doctor who oversees all your necessary screenings. The list of screenings below is based on current recommended guidelines.

For patients at increased risk due to family history, health conditions or lifestyle choices, your primary care doctor may recommend earlier or additional screenings.

When seeing an Atlantic Health System provider, you can access test results on MyChart. Visit atlantichealth.org/mychart
