MEDICAL NEEDS DON'T STOP DURING A PANDEMIC
Atlantic AdvancED Urgent Care in Mountain Lakes is Open for Your Unexpected Medical Needs

Providing safe, attentive urgent care has always been our priority – and that has never been more true than now. It’s important not to delay your care due to fears of coronavirus, as it may put you at greater medical risk. Please know we have implemented many safety measures to ensure the care you receive is safe.

New safety measures include:

- **Entry Screening** – Patients are screened for COVID-19 symptoms before entry (either in advance by phone or at entryway). Please be aware if your symptoms meet the CDC guidelines for COVID-19 testing, you will be directed for testing at nearby sites outfitted for COVID testing.
- **Express Check-in from Your Car** – As possible, we're reducing time in the waiting room, with new check-in procedures from your car and an escort straight to your exam room.
- **Virtual Express Checkout** – There’s no need to stop on your way out. An after-visit summary will be sent digitally to your MyChart account.
- **Social Distancing** – Team members and patients are following social distancing guidelines except as treatment needs dictate.
- **Limited Visitors** – Patient escorts/companions are restricted, unless medically necessary.
- **Use of Facemasks** – Everyone entering must wear a facemask.
- **Clean Office Environment** – Strict procedures are in place to routinely sanitize all high-touch areas with hospital-grade disinfectant. Handwashing with soap and water or hand sanitizer gel is strictly enforced.

In challenging times and during the better days that are sure to come, Atlantic Health System and AdvancED Urgent Care in Mountain Lakes are ready to deliver the great care that you have come to expect from us.

Reasons to choose AdvancED Urgent Care:

- **Emergency Medicine care team** – Our board-certified emergency medicine providers treat adults and children.
- **Seamlessly connected to Morristown Medical Center** – when more specialized care is necessary.
- **Advanced technology** – electrocardiogram (EKG), X-ray, ultrasound and computed tomography (CT).
- **On-site laboratory** – Results are often available within one hour.
- **Walk-in convenience** – No appointments are necessary and parking is free.
- **Coordinated follow-up care** – Facilitated by an electronic medical record system shared by all Atlantic Health locations and specialists.
- **Most major insurance plans accepted** – including Oxford/United.

Thank you for doing your part to help slow the spread of Coronavirus (COVID-19) in our community. Staying at home, practicing social distancing and frequent handwashing are the most important things you can do to help slow the spread of the disease. This will allow us all to protect one another and care for our most vulnerable communities. For more ways you can help, visit AtlanticHealth.org/Together.

Thank you for #CaringTogether
