

Pulse Secure VPN (formerly Juniper VPN) for Mac OS

This document provides information about how to configure Pulse Secure for accessing AHS Resources.

Enrollment to MFA is only required to be done once. You can now access Pulse Secure with Multi Factor Authentication (MFA) from a computer that is not within the AHS network:

For Instructions on MFA Setup [Click Here](#).

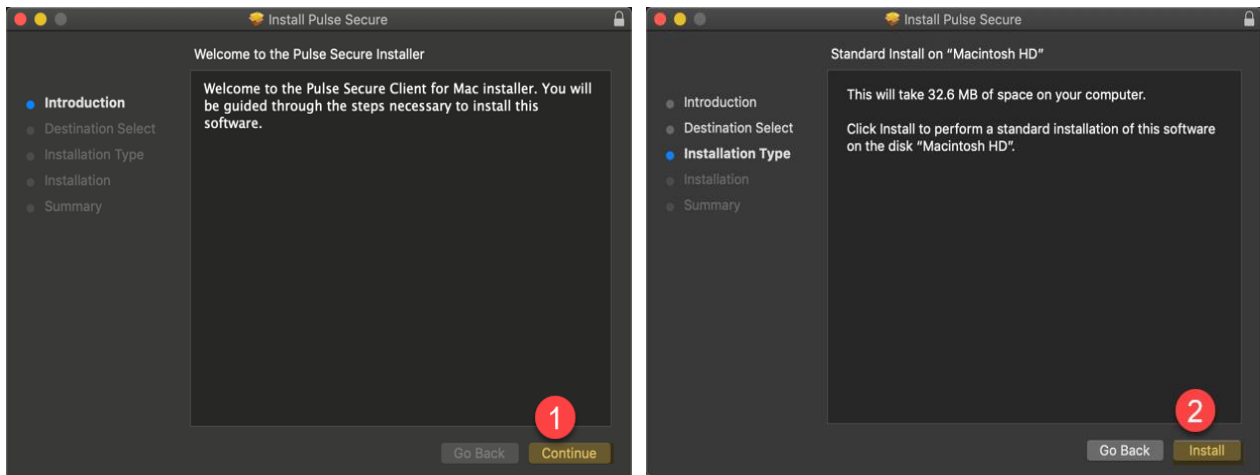

1. Open Safari and download Pulse Secure for Mac OS located [here](#).
2. Click on the download arrow, then double click "JunosPulseInstall.dmg" download in order to launch the installer as shown below.

3. Double Click on the **"PulseSecure.pkg"** icon to begin the installation.

4. The following window will open; Click continue follow by installed as highlighted below

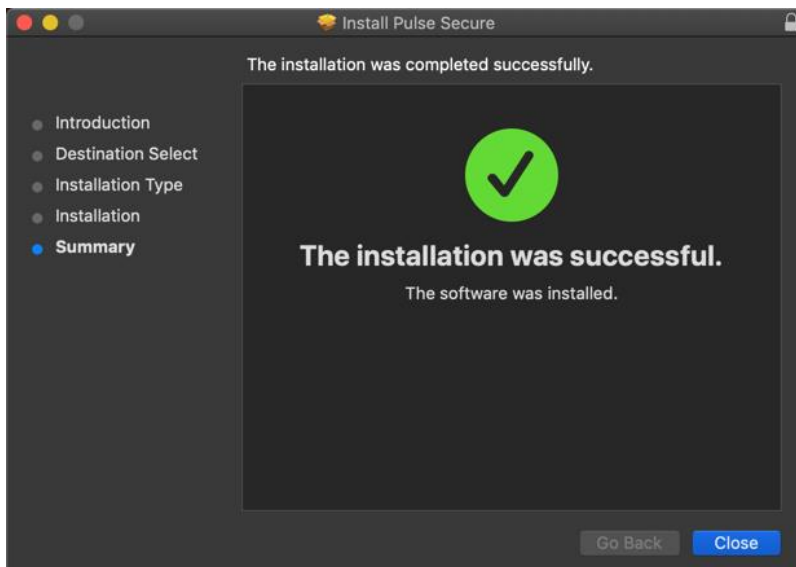

5. After clicking **"Install"** a window pops up requesting password. Enter password and click **"Install Software"** as shown below.

***Note: This Password is the same one used to login to you Mac Computer**

6. On the next windows click **"Close"** as highlighted below.

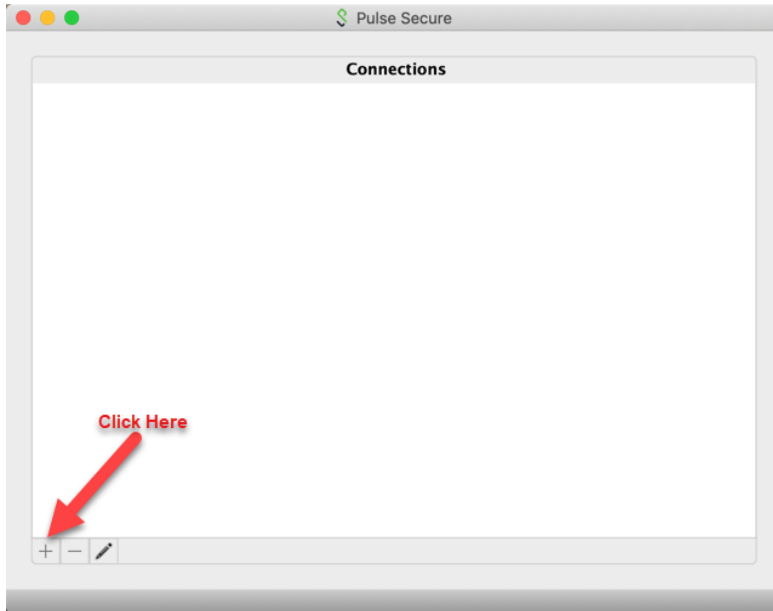

7. Click **"Move to Trash"** on the next window.

8. Once completed Open launchpad located as shown below then double click **"Pulse Secure"** as shown below.

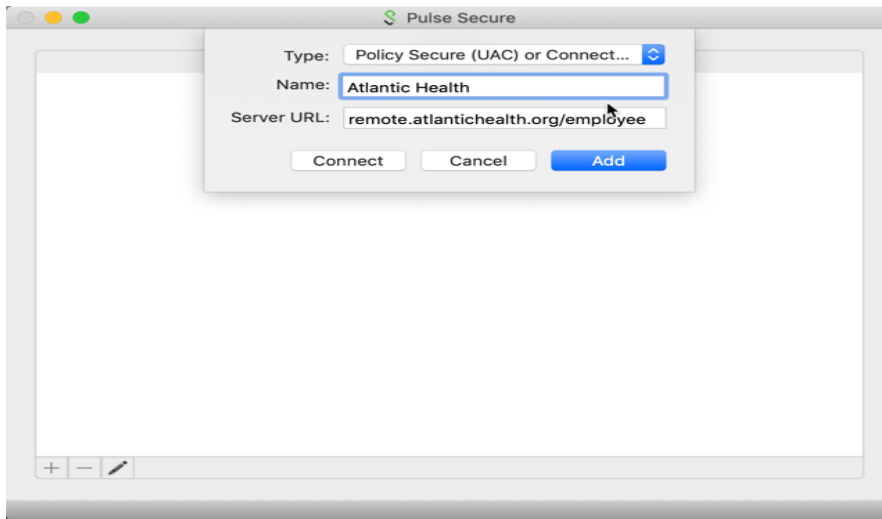

9. Once Pulse Secure opens, please click on the PLUS sign in the lower left hand corner.

10. On the next window under the Type drop-down select "Policy Secure (UAC) or Connect Secure (VPN)"

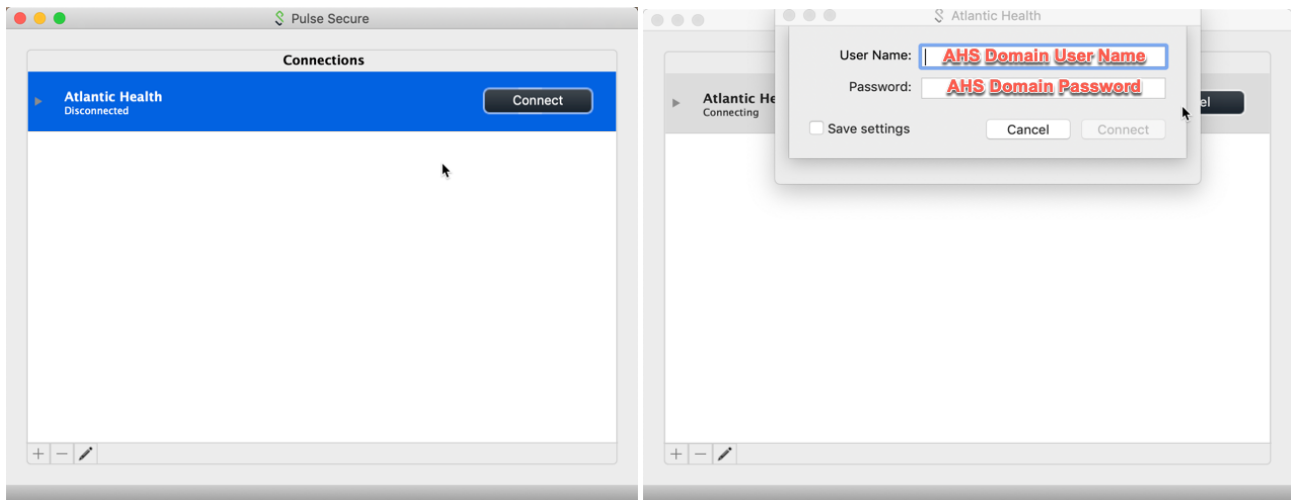

11. Enter the **"Atlantic Health"** in the Name field and **"remote.atlantichealth.org/employee"** in Server URL field. Then click **"Add"**.

12. Once complete the following window will appear just click **"Connect"** and you will be prompted for a User name and Password.

Note: This is your current AHS Domain user name and password, which is the same as your Windows login.

***Base on MFA (Multi-Factor Authentication) configuration you will either get a "Notification" via the App or a "Phone call" from 973-973-0000**

Note: If you experience any issue with the above setup, please contact CSC at [973-971-7272](tel:973-971-7272).
